By Diana I bought this for my 10-year old son for Christmas since we are both huge fans of the musical. I think the best feature of the book are the original quotes by the founding fathers, but was dismayed to find a factual error upon reading the first few chapters. For example, Spignesi erroneously attributes the quote "Liberty, according to my metaphysics is a self determining power in an intellectual agent." to both Alexander Hamilton on page 19 and John Adams on page 33 (it was a quote by John Adams). Also in the chapter on John Adams, there is a quote listed in duplicate (see quotes 66 and 67 on pages 32 and 33) which is an editorial error that should have been identified in the editing process. I was surprised to find this many errors in just the first 35 pages and this concern I now have with the book's factual accuracy will probably prevent me from finishing the rest of the book. It seems like the author and publisher rushed to get this book to print without doing their due diligence in order to capitalize on the Hamilton craze.

By NoVa Family My son received it for Christmas and we started reading. When it has a beef about the multiracial casting being historically inaccurate at the start and doesn't even get the date of the signing of the Declaration of Independence correct (page 31) - it wasn't actually signed until August. It seems like nothing more than a rush to print to capitalize on the musical. It's great to get folks interested in history, but try to at least get your facts correct.

By Michelle M. My niece in drama loved it.

You want a revolution? So did Alexander Hamilton and the Founding Fathers! America has fallen in love again with Alexander Hamilton and the Founding Fathers. Here is a popping fresh collection of facts and forgotten trivia surrounding the American Revolution and our forefathers from those you'd expect (George Washington, Thomas Jefferson, Ben Franklin, and Hamilton, of course) to those you may never have heard of, but you probably should have (who the heck was Rufus King?): Alexander Hamilton was born on foreign soil and became an American hero - the founder of the U.S. Mint and the U.S. Coast Guard. The naval communication book he wrote was still being used by the US Navy and Coast Guard through the Cuban Missile Crisis. Roger Sherman (of Connecticut) was one of only two Founding Fathers who signed the three bulwark documents of our republic: The Declaration of Independence, the Articles of the Confederation, and the Constitution. (Give props to this guy.) By the time he was thirty, George Washington had had smallpox, pleurisy, dysentery, and malaria. Readers will be left with a greater appreciation and deeper respect for these human beings who were just trying to accomplish the incredible: create the greatest nation in history. Skyhorse Publishing, as well as our Arcade imprint, are proud to publish a broad range of books for readers interested in history--books about World War II, the Third Reich, Hitler and his henchmen, the JFK assassination, conspiracies, the American Civil War, the American Revolution, gladiators, Vikings, ancient Rome, medieval times, the old West, and much more. While not every title we publish becomes a New York Times bestseller or a national bestseller, we are committed to books on subjects that are sometimes overlooked and to authors whose work might not otherwise find a home.
