**Patricia Cline Cohen : A Calculating People: The Spread of Numeracy in Early America** before purchasing it in order to gauge whether or not it would be worth my time, and all praised A Calculating People: The Spread of Numeracy in Early America:

Now back in print, *A Calculating People* reveals how numeracy profoundly shaped the character of society in the early republic and provides a wholly original perspective on the development of modern America.

"[An] exceptionally well-crafted book...Illuminating and richly detailed."-Paul Starr, "The New Republic" "An important volume...This thoughtful, original, and felicitous book deserves a broad audience."-Michael Kammen, "Journal of American History" "A classic study...This elegant cultural history of how numbers became America's most powerful signs, both for reasoning and persuasion, is crucial for understanding the transformation of 19th-century America."-Richard D. Brown, University of Connecticut About the Author Patricia Cline Cohen is Professor of History at the University of California at Santa Barbara and author of *The Murder of Helen Jewett: The Life and Death of a Prostitute in 19th Century New York* (1998).
