**John Garrett : A Classical Dictionary of India** before purchasing it in order to gage whether or not it would be worth my time, and all praised A Classical Dictionary of India:

3 of 3 people found the following review helpful. Useful to clear up cultural confusions  
By Saritha Komatireddy  
Although it wasn't exactly what I expected, this dictionary is pretty good when it comes to defining cultural terms and names. I use it to decipher lyrics to classical music, and it gives pretty good depth to the concept behind the word. The biggest difficulty is being able to spell and pronounce the word, since transliterating hindi and sanskrit lexicon can be done in many ways. I guess this is the best it can get, though, since it is your only option. In a nutshell: It's useful but sometimes tedious.

This is a pre-1923 historical reproduction that was curated for quality. Quality assurance was conducted on each of these books in an attempt to remove books with imperfections introduced by the digitization process. Though we have made best efforts - the books may have occasional errors that do not impede the reading experience. We believe this work is culturally important and have elected to bring the book back into print as part of our continuing commitment to the preservation of printed works worldwide.

About the Author  
Fresh reprint of a classic work, first published in 1871, designed for enthusiasts interesting in Hindu philosophy, literature, customs, arts. Goes into Brahmanical and Buddhist theology, rituals. A fundamental reference work.
