Arthur Goldschmidt Jr., Aomar Boum : A Concise History of the Middle East before purchasing it in order to gage whether or not it would be worth my time, and all praised A Concise History of the Middle East:

0 of 0 people found the following review helpful. Meh!By KJHad to have this book for a class, I did not enjoy the book. I felt that the book was disorganized, and jumped around too much, especially in the first half of the book. I wish it would have stayed consistent in the timeline.0 of 1 people found the following review helpful. Five StarsBy HEBook arrived in excellent condition.0 of 1 people found the following review helpful. Five StarsBy EmadGreat book and very correct

An introduction to the history of this turbulent region from the beginnings of Islam to the present day, this widely acclaimed text by Arthur Goldschmidt Jr. is distinguished by its clear style, broad scope, and balanced treatment. This book explores the evolution of Islamic institutions and culture, the influence of the West, the modernization efforts of Middle Eastern governments, the struggle of various peoples for political independence, the ArabIsraeli conflict, the reassertion of Islamic values and power, the issues surrounding the Palestinian Question, and the post-9/11 Middle East. The eleventh edition has been fully revised to reflect the most recent events in, and concerns of, the region, including an expanded and more nuanced discussion of the War on Terrorism and the Arab uprisings, coverage of the rise of ISIS, and a new chapter on the growing environmental problems of the region. In addition, the authors have incorporated new scholarship on the early history to provide a fuller picture of the political shifts and socioeconomic concerns of that time. With updated bibliographical sketches, chronology and glossary, *A Concise History of the Middle East* remains an essential text for students of Middle East history.

Praise for the Ninth Edition: "This is a text that breathes life into the history it presents. The authors both care deeply about the region and both recognize the responsibility of their American readers (their primary readers) to understand, and in a general sense sympathize, with the life struggles of the people whose history they present and whose history has become increasingly intertwined with American global interests, often times, as they recognize and relate, to the detriment of people in the Middle East. The authors are not afraid to spell out these complexities in a style that is at once accessible and gently provocative. This is a text with personality." Joel Gordon, University of Arkansas "Our students and faculty alike have found this to be a well-organized, comprehensive, balanced, and exceptionally readable textbook. The authors blend significant historical detail with timely political analysis in a cogent style that is compelling and lucid. The addition of frequent biographical sketches and side-bars on major events or political terms bring additional features that make this a compelling and one of a kind introduction to the Middle East." Donald Wagner, North Park University, Chicago Praise for the Tenth Edition:
