This is an outstanding book. I have read it three times and this is my second purchase of the book. William Woodruff is a great writer and historian.
0 of 5 people found the following review helpful. not for sureBy Customer
I'm not for sure about this book. I got it for my daughter for her college classes that she sent me a list of books she needs for the up coming semester in the winter for her spring classes. I'm guessing she likes it. She getting good grades in the class and hasn't said anything to me about any problems with the book.
0 of 0 people found the following review helpful. Great condition! Outstanding book
By Nancy Escareno
I recommend this book to any college students who are taking any world civilization, government or history class. The book was in great condition and it helps in research papers, homework etc. Highly recommend.

By investigating the major changes of world history during the past five hundred years, this book provides the necessary global perspective to understand the geopolitical and geoeconomic changes facing us today. We have reached a crucial transitional stage in world history in which the world will no longer be shaped by the single image of western modernism, but increasingly by the image of all cultures and civilizations. The need to take a world view - which this book provides - has become acute.

About the Author
WILLIAM WOODRUFF is Graduate Research Professor Emeritus of Economic History at the University of Florida in Gainesville. His writing have been widely translated. Woodruff's books include America's Impact on the World, The Struggle for World Power, The Emergence of an International Economy and a best-selling memoir The Road to Nab End.
