**From Routledge : A Dictionary of Egyptian Gods and Goddesses** before purchasing it in order to gage whether or not it would be worth my time, and all praised A Dictionary of Egyptian Gods and Goddesses:

0 of 0 people found the following review helpful. An Excellent Book for both laymen and academicsBy Matthew LawrenceHart's dictionary of Egyptian Gods and Goddesses is a comprehensive and detailed book on Gods and Goddesses in Egypt. He provides a large amount of information worthy of reading and studying. Indeed Hart shows a great deal of care when coming to more popular gods of Egypt. Though two problems arise from this dictionary. One being it lacks images and statues for some of the gods and goddesses, even if we don't have their statues it would have been nice to have seen their hieroglyphic name. Two is the lack of referencing in the entire book. Though Hart can be trusted cause of his position, the lack of references can make some people hesitant on how reliable his sources were. Even though that's the case, Hart provides bibliographies for further studies.Overall Hart's book is a recommendation.0 of 0 people found the following review helpful. Kids enjoyed.. ThankBy JDVery informative. Kids enjoyed..Thank You0 of 0 people found the following review helpful. A great readBy Rhamy MarangoA very comprehensive guide to the Egyptian Gods/Goddesses. There are black white illustrations throughout the book. This book is pretty simple straightforward, not elaborate in color or layout. A great addition to my Ancient Egyptian book collection.

Details the major gods and goddesses and presents a broad survey of others, giving a picture of the complexity of Egyptian mythology.

This dictionary not only lists famous Ancient Egyptian gods and goddesses (such as Hathor, Isis, Osiris and Geb), but also foreign and lesser-known deities, from Aken to Yamm. It presents all those worshipped at some point in Ancient Egyptian history. The information of each god and goddess given include the deity's attributes, including sceptres, crowns and animal form. Illustrated with a few black and white illustrations, it is a most useful reference for students of Egyptology and mythology. The Bibliography of Ancient Egypt Essential reading for Egyptologists and those with a taste of mythology. Western Morning News
