**Rhoads Murphey : A History of Asia** before purchasing it in order to gage whether or not it would be worth my time, and all praised A History of Asia:

0 of 0 people found the following review helpful. Always get books when in college never accept "ebooks" By Timothy Sales It helped me much more then the Ebook that the University offers. I can highlight in it and make margin notes if it is necessary. It will also provide a reference for when I start teaching History courses at universities. 0 of 0 people found the following review helpful. Five Stars By Kindle Customer This is an excellent book. It will be a permanent part of my library. 0 of 0 people found the following review helpful. Bought the book, loved the course. By Jorge Evanston Edge Aced this course! The book was in awesome shape but I left a bottle of water in my bag on a humid day and decided I wouldn't try to return it. I kind of got the first 20 pages wet. Did not feel right sending that back so I bought the book at the end of the rental cycle. As for the book itself, I think i will keep it. I have had to refer to it in other courses. I am getting my degree in I.T. but the general topic was one that I don't mind keeping this on a

bookshelf.

A History of Asia is the only text to cover the area known as "monsoon Asia" - India, China, Korea, Japan, and Southeast Asia--from the earliest times to the present. Written by leading scholar Rhoads Murphey, the book uses an engaging, lively tone to chronicle the complex political, social, intellectual, and economic histories of this area. Popular because of its scope and coverage, as well as its illustrations, maps, and many boxed primary sources, the new edition of A History of Asia continues as a leader in its field.

About the Author Rhoads Murphey was Professor Emeritus of History at the University of Michigan. Professor Murphey completed his doctorate in Far Eastern History and Geography (joint degree) at Harvard University in 1950 and joined the faculty of the University of Michigan in 1964. He specialized in modern Chinese history, the history of agriculture in Asia, modern Indian history, and geography.
