From Harvard University Press : A History of the Jewish People before purchasing it in order to gage whether or not it would be worth my time, and all praised A History of the Jewish People:

0 of 0 people found the following review helpful. Excellent OverviewBy Regular GuyA professional written book. This book covers the Conquest and Settlement of the land from its' earliest inception. From the promise given to Abraham in Genesis 12:1 through Israel's Political Consolidation after the Six Day War in year 1967.0 of 0 people found the following review helpful. Wonderful,By JHClassic text. Wonderful,0 of 0 people found the following

review helpful. Jewish history By SAR First, I was amazed at the size of this book, I didn't think it would be so big. It will take some time to digest but it looks to be an excellent source of truthful information.

A History of the Jewish People presents a total vision of Jewish experiences and achievements--religious, political, social, and economic--in both the land of Israel and the diaspora throughout the ages. It has been acclaimed as the most comprehensive and penetrating work yet to have appeared in its field. Six distinguished scholars at the Hebrew University, Jerusalem, have set forth here for the first time the authentic story of the Jewish past that is relevant to the Jewish present. Special attention is paid to the significant historical sources that have come to light in the past decades, to the findings of archaeological research, and to source materials in Jewish studies such as talmudic literature--sources that have too often been ignored by historians.

This ambitious history by six Hebrew University scholars seeks to encompass the full range of the Jewish experience in nationhood and exile. It is an impressive work...considering the necessary compression--5,000 years and a scattering of settings virtually worldwide covered in just over 1,100 pages--the work is an achievement of consequence. (Robert Kirsch Los Angeles Times) Offering a full panorama of Jewish existence from the dim origins of the 2nd millennium B.C.E. to the hard politics of modern Israel, this work breaks new ground for a one-volume history, both in its range and in its authority...The book as a whole is a monument to scholarship and feeling, immersing the reader on every page in the rich texture of the Jewish heritage. (Chaim Raphael Commentary) This huge collection of essays by "leading scholars at the Hebrew University, Jerusalem" brings to ultimate expression the "peoplehood-and-history" theory of Jewish historiography. (Jacob Neuser American Historical) Represents one of the finest compendia on the topic published to date. (Jewish Week) Language Notes Text: English, Hebrew (translation)
