Great textbook!By Briana AuclairWhile I have yet to find a history textbook that isn't a dry read, the information in this book is clear, complete and well written. There are great visuals, graphs and maps that lend to the text. I probably wouldn't have purchased this as a personal reading choice, however I do understand why my history professor chose this book. Also, I love how compact it is in comparison to a normal hardcover textbook. I received this copy used and cannot even tell it had been used, it is in perfect condition. It has held up well in being carried around for 2 months continuously.0 of 0 people found the following review helpful. KindleBy CustomerThis doesn't deserve any stars. I ordered the kindle version and the content stops after page 26.

Where is the rest of the book. Waste of money. May take longer and cost more, but might as well order the physical book. 0 of 0 people found the following review helpful. it doesn't give a history of just boring battles between kings. By FuzychiapetI really learned a lot, it doesn't give a history of just boring battles between kings, but common people, culture, art, writings.
