E. H. Gombrich : A Little History of the World: Illustrated Edition (Little Histories) before purchasing it in order to gage whether or not it would be worth my time, and all praised A Little History of the World: Illustrated Edition (Little Histories):

38 of 38 people found the following review helpful. ClassicBy MommyTeaching4This is exactly what it says it is...a LITTLE history of the world....the size of the book alone should be an indicator of that. As a historian, a history teacher and a homeschool mom, I love this book when paired with more in depth material.I have read many negative reviews (go to the 1 stars for this especially) and have found almost to a T that they are all commenting on the fact that religion is brought into the telling. Religion is a part of history. It was everywhere until very recently and until this day and age, it has always been the color of stories and history books. The way that history is written and interpreted, the objectives that are brought into history - and they ALWAYS are - is called zeitgeist, or the spirit of the age.In a nutshell, this is a lovely book meant for children. It is meant to appeal to their sense of wonder.4 of 4 people found the following review helpful. Great Easy ReadBy George LeeThe illustrations are beautifully made. The length of each

chapter and its tone of communicating the information make it easy for a casual readers to swallow. However, for those who are interested in my detailed analyses of historical events and figures, this book will be too brief and board to provide in-depth information.0 of 0 people found the following review helpful. A most excellent bookBy RowanThis is exactly what I had expected and hoped. A most excellent book. I was pleased to see it offered at such a good price. I would like to have it on my shelves in hard cover, for now I'm glad to have access to it on my Kindle. Easy to read and understand. An excellent addition to any library.

E. H. Gombrich's *Little History of the World*, though written in 1935, has become one of the treasures of historical writing since its first publication in English in 2005. The Yale edition alone has now sold over half a million copies, and the book is available worldwide in almost thirty languages. Gombrich was of course the best-known art historian of his time, and his text suggests illustrations on every page. This illustrated edition of the *Little History* brings together the pellucid humanity of his narrative with the images that may well have been in his mind's eye as he wrote the book. The two hundred illustrationsmost of them in full colorare not simple embellishments, though they are beautiful. They emerge from the text, enrich the author's intention, and deepen the pleasure of reading this remarkable work. For this edition the text is reset in a spacious format, flowing around illustrations that range from paintings to line drawings, emblems, motifs, and symbols. The book incorporates freshly drawn maps, a revised preface, and a new index. Blending high-grade design, fine paper, and classic binding, this is both a sumptuous gift book and an enhanced edition of a timeless account of human history.

"Sumptuously illustrated. . . . Perfect for reading to alert and curious children, but its even better as a secret pleasure, read alone, with no children in sight."Philip Kennicott, *Washington Post*
