JacketI have just finished this warm hearted and honest autobiography of Tulku Yeshe. It is written with a sense of

humor and profound insight of the human condition. Tulku Yeshe takes us back to his early childhood in Tibet with its many trials under the communist regime as well as the honest portrayal of a curious and often mischievous youngster. He describes his loving family life and the causes and conditions that eventually led him to become a monk under the tutelage of some great Tibetan Masters. There is magic and mystery as well as ordinary day to day human concerns and enjoyments. Always a free spirit he wanted to leave Tibet to further his Dharma practices as well as experiencing the larger world of the human family; sometimes even without his guru's permission! His stories of his encounters with his teachers are deeply felt and one can feel his sincere love for them. He also describes the many obstacles of leaving Tibet (escaping) along with many SMILE inducing yarns. Even I laughed out loud at his humorous situations he relates due to his karmic unfolding. Tulku Yeshe finally ends up at Sakya Monastery in Seattle, WA after a harrowing New York City adventure. He writes about the last ten years in Seattle serving Dagchen Sakya and Dagmo Kusho (Dagchen Sakya's wife) and the Dharma community in the Pacific Northwest. Tulku Yeshe with humility describes some of his obstacles here in the USA with the distracting nature of the internet (like being in a candy store) and his slow purification of some anger he still deals with. This will be inspiring to any Dharma practitioners as well as interested readers of this fascinating Monk Tulku Yeshe. He is a poet and writer of literature as well as historical Tibetan books which I look forward to perusing when these works are translated into English. I highly recommend this autobiography of Tulku Yeshe's and also look forward to hearing about his further karmic unfolding!

The life history of a re-incarnated Tibetan Buddhist lama as he progresses from a humble beginning in a totalitarian society to a state of difficult yet full engagement with the Buddhadharma.
