Very informative! A must read!By BaconLoverHow often have we heard that "we all worship one God", whether Christian, Jew, or Muslim? Maybe you have heard the rationale that we are climbing a mountain, but we seek a different route to the top (Heaven), therefore all religions are the same. But is that actually true? In "A Simple Crash Course on Islam: Are the Bible's God and Allah the Same", author J.P. Sloane separates fact from fiction in this easy to understand book. My hope is that Church leaders will read this book because, as Dr. Sloane points out, the art of taqiyya (Jihad of deception) is promoting a newer replacement theology known as Chrislam. Unfortunately, this teaching, promoted in many mega churches today, rejects God's covenant with Jews; with Israel. This book is a study of what the Koran says about Islamic faith, including a glossary of Koranic Arabic. It's easier to have a conversation with everyone, including Christians and Muslims when you fully understand and distinguish between the Bible and Koran. This book has the tools to educate all of us. This is not a book bashing one religion over another, but rather to set truth apart from fiction. Is the Bible consistent in it's message? Is the Koran? The answers lie inside the book.1 of 1 people found the following review helpful. JP does a great job in his research and presentationBy CustomerJP does a great job in his research and presentation. **CHURCHES:** This is a wonderful way for your small groups to study Islam in light of the Bible. Thanks to years of research, you can now own this excitingwell documentedresource to keep readily available for a quick reference on Islam. This volume contains not only the history of Islam, but also biblical and koranic comparisons, including a brief parallel of Muhammad and Jesus. There is a section on Sharia Law and an expose' on what could well be the End Time religion called "Chrislam" (Christianity + Islam) including the list of signers of a Muslim-Christian pact known as the "Yale Covenant." In our glossary there is a mini dictionary on Arabic and Islamic terms. In addition to this unique crash course on the foundations of Islam, we also have shocking, up-to-date revelations of current Islamic activities. Learn how Muslims in America and the West are implementing Sharia Laws in businesses, courts, schools and government. We cut through all the Islamic propaganda fed to us by politicians and the media by using the Koran, Hadiths and Bible to help the seeker of knowledge have a better grasp regarding the basics of this mysterious and often misrepresented religion. To further aid in understanding, we have developed tables and charts for the more complicated issues to make them easier to grasp. Find out how the founding fathers of this "religion of peace" met their deaths. Explore the accuracy regarding claims of biblical compatibility made by the Koran in light of the Bible itself regarding historical figures, events, times and places where they occurred. What is jihad? What is Sharia Law? Find out about this and more.
