thankful for her wonderful books! I 5 of 5 people found the following review helpful. A Soul Remembers Hiroshima By Margaret M. Pratt With this book, I have now read every single book by Dolores Cannon. I must say, it was rather heart-wrenching. It gives a very detailed view of life in Japan during the first part of the last century. What made it heart-wrenching (aside from the terrible toll of lives) is that internally Japan was a basket case because their army had so brutalized the country for its own survival. It isn't clear that the US was really aware of this or not. 0 of 0 people found the following review helpful. A Soul Remembers.....Fascinating! By Carol Clancy This book was fascinating. It should be read with an open mind as with other books of this nature. I think that Dolores Cannon has such a professional and organized way to present her findings. The subject matter in this book is something that has always captured my interest and I am very glad that I read this book. I will be buying more of her books because this one was so well written and I really enjoy the subject of past life regression. I am so glad she decided to share this experience with the world.

The persistent memory of a horrible death, that reached across time and space, and caused a 22 year old American girl to seek past-life therapy, revealed the dramatic story of a Japanese man who was killed in the atomic bombing of Hiroshima. There have been many stories of pain, death and destruction told by survivors of the Hiroshima bombing. This is the eyewitness account of one who did not survive! This case revealed startling information about the Japanese side of the war. Research into the bombing also revealed terrible truths that the public was not aware of at the time of this dramatic ending of World War II.

About the Author Dolores Cannon is a past-life regressionist and hypnotherapist who specializes in the recovery and cataloging of "Lost Knowledge". Her roots in hypnosis go back to the 1960s. She has been specializing in past-life therapy since 1979. Dolores has become, perhaps, the world's most unlikely expert on the prophecies of Nostradamus. A retired Navy wife from Huntsville, AR, USA, Dolores was nearly fifty years old when she began experimenting with hypnosis and past-life regression. The results were, to say the least, quite spectacular! Working through several different subjects, Dolores was able to establish communication with the living Michel De Notredame, better known as the prophet, Nostradamus. His revelations and their impact on our own time are both fascinating and at times frightening. Dolores has written the three volume set "Conversations With Nostradamus", the series on the translation of Nostradamus' quatrains. This series contains the translation of almost 1000 prophecies, all interpreted for the first time and have been in print since 1989. It is considered the most accurate interpretation of the prophecies ever printed. During the past eighteen years Dolores has been a UFO investigator, using her skills as a regressionist to help people that been involved in abduction cases. She has written several books on the UFO information volunteers have revealed while under hypnosis. Dolores is now teaching her unique technique of hypnosis all over the world. In addition to the three volumes of "Conversations With Nostradamus", Dolores has completed: "The Legend of Starcrash", "Keepers of the Garden", "Legacy from the Stars", "A Soul Remembers Hiroshima", "They Walked With Jesus", "Jesus and the Essenes" and "Between Death and Life". "The Custodians", discusses in detail information regarding distorted time, screen memories, reasons for abductions, implants and much, much more.... Her latest book, "The Convolved Universe, Book One", goes further into complex metaphysics
