**Leo Wiener : Africa and the Discovery of America** before purchasing it in order to gage whether or not it would be worth my time, and all praised Africa and the Discovery of America:

This book is about an event in history that changed the world for all times. It is a sad story that did not have to be. What Africans and the indigenous Americans have given to the world is a part of total humanity that must be

respectfully considered in order to build a world where all people can walk in peace and dignity with their respective contributions accepted.
