The Africa Yearbook covers major domestic political developments, the foreign policy and socio-economic trends in sub-Saharan Africa - all related to developments in one calendar year. The Yearbook contains articles on all sub-Saharan states, each of the four sub-regions (West, Central, Eastern, Southern Africa) focusing on major cross-border developments and sub-regional organizations as well as one article on continental developments and one on European-African relations. While the articles have thorough academic quality, the Yearbook is mainly oriented to the requirements of a large range of target groups: students, politicians, diplomats, administrators, journalists, teachers, practitioners in the field of development aid as well as business people.
