Jean-Paul Sartre : Anti-Semite and Jew: An Exploration of the Etiology of Hate before purchasing it in order to gage whether or not it would be worth my time, and all praised Anti-Semite and Jew: An Exploration of the Etiology of Hate:

0 of 0 people found the following review helpful. strange but...By Curt About a half or so of the book is incredible, the

other half of the content is rather bizarre... it's clear he dashed it off, but for a dash-off it's impressive. He talks about "Jews" as if he knows ... but... nevertheless, his theoretical insights into the assignation of otherness and the psychological binds thereby caused are still relevant today and serve as a framework for race studies. 1 of 1 people found the following review helpful. I reference this book a lot. By Razor "If the Jew did not exist, the Anti-Semite would have to create him." This is a pretty insightful book on hate, and the seeds of Sartre's philosophy on identity find soil here. A lot of people know that being Anti-Semitic is foolish, but Sartre illustrates pretty well why it's foolish on a lot of different dimensions in respect to the concept of identity. In my opinion it also gives the reader some insight into the history of Anti-Semitism. 0 of 0 people found the following review helpful. Five Stars. By Dor Selix-Gabby. Yes an informed study. With great depth.

With a new preface by Michael Walzer. Jean-Paul Sartre's book is a brilliant portrait of both anti-Semite and Jew, written by a non-Jew and from a non-Jewish point of view. Nothing of the anti-Semite either in his subtle form as a snob, or in his crude form as a gangster, escapes Sartre's sharp eye, and the whole problem of the Jew's relationship to the Gentile is examined in a concrete and living way, rather than in terms of sociological abstractions.

"[A fervent and brilliant challenge to anti-Semitism." The New York Times "A review . . . can merely indicate the humanity, the compassion, and the suggestive brilliance of Sartre's writing. His essay is a genuine contribution to contemporary thought; it will be read and reread in years to come." Harvey Swados "Still a monument of postwar writing on anti-Semitism . . . Michael Walzer's fine introduction will help current readers sift out what remains relevant from Sartre's work for considering the variants of anti-Semitism haunting the world today." Elisabeth Young Bruehl "Sartre's account of anti-Semitism is an acknowledged classic, based in large measure on assimilated Jews whom he personally knew. Michael Walzer's essay provides significant balance to Sartre's brilliant analysis." Arthur Hertzberg. Language Notes. Text: English (translation) Original Language: French. From the Back Cover. 'Still a monument of postwar writing on anti-Semitism.... Michael Walzer's fine introduction will help current readers sift out what remains relevant from Sartre's work for considering the variants of antisemitism haunting the world today.' Elisabeth Young-Bruehl
