**Dr Sasha Lessin : Anunnaki: Gods No More** before purchasing it in order to gage whether or not it would be worth my time, and all praised Anunnaki: Gods No More:

1 of 1 people found the following review helpful. this would not be a good choice as it could easily muddy the waters ...By CustomerAs an intro to this topic, or even to those only somewhat familiar with ZS this topic, this would not be a good choice as it could easily muddy the waters or completely turn off a newbie. However, if you already have a solid understanding of the topic, it can act as a strangely concocted extremely fast skeletal summary of sorts with it's most redeeming quality being quite a few good "new" pictures relating to the story. Be forewarned of shocking glaring bad spelling, run on repeat sentences broken paragraphing all over the place. I purchased this book with the idea that ZS in some way blessed the effort, and that it would therefore be aligned with ZS standards. Not so. After just a section or two, it became clear this idea was fantasy on my part. While I can imagine ZS appreciating the interest desire of the author here, I cannot imagine ZS endorsing this as a continuation of or an adjunct to his work. Bottom line, I'm not

returning the book now that I know what to expect, I might even try another effort of this author to give it another whirl in the future. 2 of 2 people found the following review helpful. Step back from the earth 62 miles up and ask the question "What does the gold in that land was good have to do with the so caBy Vernol Gumbs Very informative, bridging the gap of many concerns relative to who we are and why are we here and what the stories and accounts of the Bible may mean to us. One has to open ones mind to the practices that we are taught and the technologies that shape our lives as no matter how spiritual we may appear to be, the practically of life governs us on this seemingly prison planet of progressive learning and instruction. I would dare to ask a simple question; Step back from the earth 62 miles up and ask the question "What does the gold in that land was good have to do with the so call making of human-man by an entity, be it an all knowing supreme absolute entity that we confuse as God working in low matters?" Does the Absolute of all who the universe and everything seen and unseen came out of Him decide to make human man; if He did was He doing it the way we are told to teach someone higher than us a lesson or are we someone else s modeled form that the absolute has cautiously intervened into to chart a learning path toward His Glory revealed on our behalf for salvation. I would like to say so much more but would have to write a book to do so. One final comment..."Behold the man has become AS one of US is NOT the words of the Absolute Almighty God who knows no evil. Those are words of caution being expressed by a powerful dissatisfied entity posing in the Bible as God. The Absolute stands alone... This entity would seem like he has a problem becoming like him,, One of Us in Genesis 3 but in the New Testament we are called to be like Jesus ..hence God. Quite confusing.. Truly he who controls the Pen controls the page and the thinking of the age. 1 of 1 people found the following review helpful.

**MYTHOLOGY IS REALLY HISTORY RETOLD AND RETOLD.** By Dorothy K Morris, Author of the Mockingbird Hill Series Concise review of the work of Sitchin. Could use some more editing; however, the meat of the book is right on with the new theories of how we got to be and the history of the earth based on new translations of the old Sumerian texts. I remember reading them when I was in my 20s at college. I found them fascinating then and even moreso now that we know so much more about technology, aeronautics, geology, astronomy, genetics, etc. It is high time that we process the new knowledge and realize that so much of our animosity has been set in motion by these facts of our history. I first recommend that anyone curious about this subject should read all of Z. Sitchin's work, and then read this as a great little review book. I intend to pursue further reading of the authors and researchers and scholars he mentions in this book.

Dr. Lessin explains the Anunnaki's involvement in human history. The giant olden gods, folks with high tech their heirs chain us to short, hard lives. The "gods" rocketed here from the planet Nibiru bred with Homo Erectus to create us as short term slaves soldiers. We praised them killed in their names: Allah = the Sumerian Nannar, Yahweh = Enlil, Adanai = Enki. Read this book transcend the "gods" religions.

About the Author Sasha Lessin Ph.D (U.C.L.A. anthropology Ph.D.), author of Anunnaki: Gods No More and producer of the hugely popular web site, [www.enkispooks.com](http://www.enkispooks.com), studied with the late Zecharia Sitchin, for many years. Mr. Sitchin asked Lessin to create popular internet, book and college-level courses to revise ancient anthropology. Sitchin asked Lessin to help disseminate written, graphic and traditional stories of ETs, hithertofore considered mythic "gods" on Earth from 450,000 years ago to 300 B.C. as well as the latest findings in astronomy that relate to the planet Nibiru from which the ETs came to Earth for gold to shield their planet, Nibiru. To this end, Dr. Lessin and his wife, Janet (a lifelong contactee) present public slide shows, radio and youtube programs and lectures.
