If you are ready for deep thinkingBy R. SwansonThe book is a little dated, but it is still relevant. It is not a casual read unless you are history of philosophy major. He tends to be very supportive of the historical Catholic Church and even criticizes those who split instead of trying to purify the church, but he still does a masterful job in explaining the influences of history and Christian thought on each other. It may not be a must read for a layman, but it is full of food for thought for the serious thinker.0 of 0 people found the following review helpful. Five StarsBy CustomerGood
