## War 2: Accounts Of Holocaust History (Volume 1):

2 of 2 people found the following review helpful. Valuable  
By Nigel Claine This book will teach many people what anti-Semitism is, what Holocaust is. It can really make you sad, but we must know the history, so that to stop it from repeating. I am very proud that those people fought in war for their values and ideals. All of us should know and remember these people.  
0 of 0 people found the following review helpful. no where in this book are there any survivor accounts ...  
By Rebecca Shaferno where in this book are there any survivor accounts it is nothing but military jargon, submarine descriptions, and uninteresting descriptions of ships, subs, tanks etc. totally misleading title  
0 of 0 people found the following review helpful. So so book  
By SaDonna Thompson I found this book rather disappointing. There were few stories about the people who went through this horrific time and few about people who assisted them. The last half of the book was dedicated to submarine history. Really?

Incredible True Holocaust Survivor Stories From World War 2: Accounts Of Holocaust History If there is one thing that can be said about humanity, it is that we are true survivors. From wars to natural disasters, man has managed to bring himself back from the brink of destruction. Of these many disasters we have faced head on, none can be more telling than the two World Wars. As the names suggest, the whole world felt the impact of these wars, shook from the intangible tremors that spread to the entire globe. The Second World War in particular, was something of a power play, where millions lost their lives because one group believed in the power of their hegemony over all the rest. The Holocaust could, perhaps, be described as the most disastrous and devastating man-made storm the world has ever seen. Called Ho-Shoah in Hebrew, the entire Second World War was nothing but state sponsored murder of those a dictator believed to be beneath him, simply because they were born different. From Jews to homosexuals, millions were persecuted, and it took the western nations coming together to stop this madness. This sacrifice by fire which is what the name itself means can be taken as a true example of humanity's darker side, which seeks to control and make others submit to its will. To put it simply, the Holocaust remains a stark reminder of how dark humanity can truly be...

About the Author  
Cyrus is a very avid history buff but his biggest joy is the interesting history of our World War's. For the last 2 decades Cyrus has dedicated himself to continue learning and applying his knowledge to his books. His books are written from an angle so as to give the reader maximum entertainment and information in the most effective format. Cyrus believes the more you learn the more you grow, so he always instills that in every book he writes. Cyrus likes to call Ireland home where he spends his spare time hiking and enjoying the countryside with his family. If you love war history then be sure to check out his books below.
