is well researched and varied and covers a period of human history that at present seems to be somewhat forgotten. Lots of graphics make it an easy read (my 7 year old enjoys going through it as well). I would recommend this book to anyone who wants to get up to speed with topic in a short space of time. 7 of 8 people found the following review helpful. Who do I THANK?????????By Lover of Humanity I'm a Baha'i. I defend Muhammad and the Quran because they are GOOD. People attack Islam and try to show its nothing but evil terrorists and never contributed anything to the world!! Now I have another tool to point out the beauty of Islamic civilisation and how it enriched our current day lives. To hate on Muslims just because of a few evil terrorists grieves my heart because Muslims are a WONDERFUL people with a BEAUTIFUL culture and language and have done MUCH for humanity. Please don't get caught up in the Muslim bashing it's really inhumane to blame an entire civilisation for the crimes of a few. I expected this book to be words. I thought 'maybe there will be a picture or two'. FULL of pictures!! Very nice. This is AWESOME AGAIN thank you AMAZON!! I'm using Kindle on iPad and the pictures are terrific. For \$8!! Let's celebrate the beauty in all races, cultures and faiths and the gifts they have given humanity. This book corrects a lot of injustices and accurately shows how Islamic civilisation has and does contribute to our lives. We are all connected by our common humanity so let's look at the good in each and celebrate that and be united. Gabriel love to you. And thanks for making this available on .2 of 3 people found the following review helpful. Major Work - Monumental Scientific EncyclopediaBy CustomerIts a scientifically peer reviewed evidence based major work that cautiously keeps to the middle ground highlighting the positive achievements of all scientists whether Greek, Islamic, Indian, Chinese or European, while focusing on the Experimental Method as deciphered by Alhazen and his scientific peers. Religious and cultural bias is avoided and emphasis is laid on consensus for a globally shared responsibility. BBC and National Geographic have made various documentaries on this subject that are further detailed and peer referenced in this monumental scientific encyclopedia. George Sartons work, History of Science, is specially referred to including various other internationally renowned historians of science. Further, it gives solutions for creating a much desired ethical scientific and sustainable perspective.

FULL COLOUR VERSION - INTERNATIONAL ACCLAIM FOR THE AUTHOR: Passionate and motivating - Sheridan College, Canada A paradigm shift - Dr. David Suzuki, Science broadcaster and environmental activist, Canada Gabriel Makes The Difference. He walks the talk. This is a timely message. - Peel Multicultural Council, Canada Well expressed work. - Ealing, Hammersmith and West London College, UK "Dynamic" - BTL Worldwide, Dubai "Uncovered the mechanics of the flow of creativity." - Novell, USA "Gabriel has always amazed us as a human being as someone who comes across very different from the crowd. - Tyco International, USA "Fresh lateral thinking and out of the box solutions. - Kempinski Hotels, 5 Star Resorts, Switzerland Amazing, we have learnt so much. - George Brown College, Canada PREVIEW: It has taken 25 years of research and development to create this encyclopedia, with the hope for International Scientific Awareness, Inter-Faith Understanding, Sustainable Technological Innovation and a much desired World Peace. A Research into Scientific Experimentation / Empiricism (Ulum al itibar) and Origins, Attitudes, Values and Rejuvenation of Islamic Science along with its implications on Sustainable Development and new energy technologies. Award-winning sustainability training specialist and internationally acclaimed Biologist, Poet and Humanitarian, Gabriel Iqbal, translates his visions into pragmatic disciplines by reviewing the entire history of Experimental Science and links with scientific pragmatism and coexistence. The origins and sustainable ethical applications of practical empirical scientific method are rooted in the Golden Age of Islam. A thousand years of Science, Technology and Civilization in Islam (800 - 1800) and its implication for Sustainable Development in a modern context is elaborated. This illustrated encyclopedia is also available as an option with large poster prints of the illustrations in this encyclopedia for usage as a supplement to the Educational Science Curriculum and Science Museum Exhibitions. Optionally 80+ Colour Coded Posters are available with this research for use in Schools, Universities and Museums. The posters can be displayed permanently on the hallways, classrooms, libraries and laboratories and will highly improve the student's visual appeal, learning ability and knowledge of Science and Civilization in Islam along with Proactive Solution Oriented Research and Innovation Capability for Ethical Scientific Thinking, Global Leadership, Sustainability and above all a Responsible and Sincere attitude towards World Peace. Science curriculum based projects are also included. An extended bibliography is available to supplement this research. The research in this encyclopedia is a form of Civilized Science that can perhaps save us from our current challenge of evolving from a gregarious species to a coexisting one. The goal is to work collectively as part of a world community and re-engineer Scientific Ethics and Principles for the betterment of the Global Human Condition and a Sustainable Future that works in Harmony with the Balanced Phenomena of Natural Law.
