Great BOOK!By SteppLet me keep this review short and sweet.ALL White people should read this book! I am not saying that it has all the answers and or is perfect in every way. But, it forces you to think like a real White person - Before the Jews over

ran our media world and claimed it as ONLY their own. Either European man changes back to what they used to be as a group and as individuals - that being a LEADER or game over for us. The world really will fall into a 'dark age' for all time. 32 of 40 people found the following review helpful. The only Ideology that can save the White Man and his High Culture and Civilisation. By A Wandering Philosopher "Imperium Europa" is the only Ideology that can save the White Man and his High Culture and Civilisation. "Imperium Europa" is indeed the best synthesis I have read so far of all the pertinent ideas our white race will need in the future, if we want to return to the upward path and become masters of our own destiny again: A planetary Imperium for the European race which will also be a laboratory for the creation of the "bermensch". Yin and Yang, Male and Female, Imperium and Dominion, Elitism and Populism, Two white rings north and south of the Equator will girdle the earth, bringing together Slavs, Teutons, Anglo-Saxons and Latins. Cosmotheism: we must become the conscious manifestation of the Cosmic Will. Being myself a disciple of Wagner, Nietzsche and the new paradigm they both gave birth at the end of the XIXth Century, Superhumanism, I have particularly enjoyed all the references to them and to their artistic, philosophical or political epigones. Lowell and his IDEA are the best vademecum for the Superman!

Imperium Europa is a book that confronts, and puts forward a radical response, to the all important questions of the survival of the Europic race - that race of biological aristocrats that gave the world everything. The book delves into genetics, geo-politics, racialism, environmentalism, art, architecture, education, economics, immigration, and more. Written by Norman Lowell on the ancient island of Malta, Imperium Europa is, as German writer Constantin von Hoffmeister puts it, A vision of what Europe will become. Not what Europe should become but what Europe WILL become.
