Americans beware!By johnThis book will open your eyes to a problem that is being not only overlooked, but denied due to political correctness by the government and the mainstream media. The gradual encroachment of Islam into American society is an insidious invasion of a socio-

political philosophy totally in opposition to our constitutional democracy. Beware the innocent-looking local mosque. 12 of 13 people found the following review helpful. A must read book. I'm endorsing this book as it is an eye-opening book to Americans! By Kindle Customer This book was written by Paul Sperry several years ago. Paul tried to warn the Government about the Infiltration of Muslim Spies. I am impressed and astonished that OUR Government would hire these thugs (who hate our country) into jobs with so much secret Information! Years later it continues to happen. Why is American so blinded? 2 of 3 people found the following review helpful. Readers would also like "Jenna's Flaw" By Lee Tasey "Infiltration" is a wake-up call of a book. In it, author Paul Sperry claims that Islamists have infiltrated every aspect of American life-educational, governmental, and military, just to name a few. The goal? To overthrow the US Constitution and to replace it with Quranic Law. The Islamists are succeeding. Since they don't have a traditional army to wage jihad, they're waging jihad through other means, mostly by stealth. And since a climate of political correctness has a stranglehold over American life, the Islamists are having an easier time Islamizing our country. If they're successful, it will be a disaster for Western democracy, personal liberty, and human rights. Thankfully, it's not too late for Americans to wake up. In fact, they already have. With the election of Donald J. Trump, many Americans said "No" to the Islamization of the West in general and of America in particular. For modern Westerners, Trump's election was a blessing; for Muslims, it was a disaster, since their dream of a global caliphate governed by Quranic law just came to an end. Readers of this book would also like "Jenna's Flaw," a novel about the death of God, the crumbling of Western civilization, and how to save it.

The most sinister terrorists won't be sneaking through our borders from the Middle East. They're already here. This is the untold story about the silent, yet extremely dangerous threat from the Muslim establishment in America? an alarming expos of how Muslims have for years been secretly infiltrating American society, government, and culture, pretending to be peace-loving and patriotic, while supporting violent jihad and working to turn America into an Islamic state. In this powder keg of a book, you'll learn: How radical Muslims have penetrated the U.S. military, the FBI, the Homeland Security Department, and even the White House? where subversive Muslims and Arabs have received top-secret clearance. How they've infiltrated the chaplains program in the federal and state prison systems? a top recruiting ground for al-Qaida. How they've successfully run influence operations against our political system with the help of both Democrats and Republicans, badgering corporate boards into Islamizing the workplace. How we've been utterly duped about what the Quran does and doesn't teach. Sadly, much of anti-Western terrorism is simply Islam in practice, the text of the Quran in action. In a time when religious and political leaders are scrambling to smooth over differences in faith and beliefs, this book gives the terrifying truth about the very real, very deadly agenda of Islam and how it has already infiltrated key American institutions with agents, spies, and subversives.
