Great Book!By Ned A. AshtonI love this book! It is full of great info and history, and it is presented in a fun easy to read and understand comic-booky format. I had already

owned a copy of this book and lent it out to a friend, the book subsequently got lent out to another person and another. needless to say I never got it back and was disappointed when the book store no longer carried it, so I am glad to have found a new copy here on !

"Introducing Buddha" describes the life and teachings of the Buddha, but it also shows that enlightenment is a matter of experiencing the truth individually and by inspiration which is passed from teacher to student. Superbly illustrated by Borin Van Loon, the book illuminates this process through a rich legacy of stories and explains the practices of meditation, Taoism and Zen. It goes on to describe the role of Buddhism in modern Asia and its growing influence on Western thought.

"An exemplary introduction... persuasive and intelligently critical.' Times Educational Supplement" About the Author Borin Van Loon has worked on numerous Introducing titles. He is a freelance illustrator, surrealist painter and collagist who produces the comic strip 'The Severed Head' for The Chap magazine.
