M. A. Draz : Introduction to The Qur'an (Introductions to Religion) before purchasing it in order to gage whether or not it would be worth my time, and all praised Introduction to The Qur'an (Introductions to Religion):

In Introduction to The Qur'an, the distinguished Islamic scholar M.A. Draz, one of the Muslim worlds most erudite authorities of this century, sets out the fundamental principles of the Quran and its much misunderstood and misquoted teachings on gender and women, polygamy, war, faith, Judaism, Christianity, and the many other issues on which the

Quran pronounces.

This valuable introduction to the study of the Quran by a prominent Azhar scholar provides a rare glimpse of applying modern textual-historical methodology to the study of Muslim scriptures. M. A. Draz understood the challenges of this critical methodology and attempted to respond to some of the persisting questions about the reliability of the Muslim scriptures and its misapprehended message of peace. -- Abdulaziz Sachedina, Frances Myers Ball Professor of Religious Studies, University of Virginia
