Malise Ruthven : Islam: A Very Short Introduction before purchasing it in order to gauge whether or not it would be worth my time, and all praised Islam: A Very Short Introduction:

The author does not evade the difficult debate about the relationship between the West and the Islamic world, but succeeds

in creating a broader perspective on this controversial issue. One can only regret that this is not the most accessible volume in the "Very Short Introduction" series. It requires substantial background knowledge to follow the author in his argumentation. A little more basic information about the facts of Islamic religion and its history would have helped considerably. 1 of 1 people found the following review helpful. Read this and the one on the Koran together. By G. H. Goodwin This and the introduction to the Koran should be read together. Combined they give a fair and impartial treatment of these two intertwined subjects. I like this series of books and have over a dozen of them. 1 of 1 people found the following review helpful. Not his best, but still helpful... By Brendan J. Mcsherry Disappointing in comparison to Ruthven's other work -- he is perhaps the best English-speaking "interpreter" of Islam.

Islam dominates the news, often in stories filled with images of violence. Yet these disturbing images are at odds with a faith that most adherents--who now number over a billion worldwide--would regard as no less pacific than Buddhism or Christianity. Indeed, the word Islam in Arabic means "self-surrender" and is closely related to salaam, the word for peace. In this thoroughly revised new edition, Malise Ruthven offers a balance, compact, and reliable overview of Islam. An internationally recognized authority on Islam, Ruthven offers essential insights into this major world religion, examining such issues as why Islam has such major divisions between movements such as the Shi'ites, the Sunnis, and the Wahhabis, and the central importance of the Shar'ia (Islamic law) in Islamic life. He also provides fresh perspectives on contemporary questions: Why is the greatest Jihad (holy war) now against the enemies of Islam, rather than the struggle against evil? Can women find fulfillment in Islamic societies? How must Islam adapt as it confronts the modern world? For the new edition, Ruthven brings the text up-to-date, shedding light on some of the most significant changes in the Muslim world in recent years; from the emergence of al-Qaeda and the attacks on New York and Washington on 9/11 and the ensuing wars in Afghanistan and Iraq, to the uprisings in the Middle East and North Africa. Ruthven includes a new chapter on "Globalized Islam," which examines the effects of economic globalization, the impact of international events in Middle Eastern countries, the questions surrounding Islam and democracy, and the reception and perception of Islam in the West.
