BookCaps : Islam In Plain and Simple English before purchasing it in order to gage whether or not it would be worth my time, and all praised Islam In Plain and Simple English:

1 of 1 people found the following review helpful. Good Overview...By Adam B.This is a good overview of Islam. It is a short read, and I recommend it to anyone that wants to learn a little bit about Islam. There are a lot of good books on the subject, and I would add this to the list. Some parts are a little confusing, but that only made me see the deeper

answers for myself. Thank you for the informative book.

Islam can be a difficult religion to understand even to believers; this book takes the complex concepts of the religion and breaks it down in a way that's easy to understand.
