I would recommend it to people interested in understanding a little bit more about conversion to Islam in South Asia.0 of 1 people found the following review helpful. A good pathfinderBy Dr. Mohamed TaherExcellent orientation and focused for the age of globalization.Must for students of a geo-political area, with whatever name you call: Middle Eastern Studies, West Asian studies, Near Eastern studies, etc.

This essay explores the rise of Islam and its continuing influential role in Africa, Asia, and Europe, making it the source of a truly global civilization. Such concepts as the nature of Islamic civilization and the sources of its cultural diffusion, Islamic socioreligious institutions, and Islam as a world system are also discussed.
