Gary Frazier : It Could Happen Tomorrow before purchasing it in order to gage whether or not it would be worth my time, and all praised It Could Happen Tomorrow:

Skip it--many other (evangelical/conservative) books are availableBy Used by MichelleThe copyright is 2011--this means there is no discussion about the current Pope in the parts where the author talks about Popes. Obviously this also means the information on the middle east is also

woefully out of date. The defense of the pre-trib rapture position leaves one (and I am already one who believes in the pre-trib rapture) wanting--there is very very very little material in support of it in the book. This is the biggest flaw in my opinion. The author seems to think that at least parts of Matthew 24 refer to the church (LOL)! Does he not know that Jesus' answer is directed to Jews and not the church? A second edition of this book could be useful if the present deficiencies are remedied. 1 of 1 people found the following review helpful. I believe he has an error on page 86. ...By John Nickerson I believe he has an error on page 86. He talks about Mohammad's writings. I always thought Mohammed was illiterate. The author also refers to Mohammed writing the Koran. I always thought the Koran was written after Mohammed's death. Also his research is weak. On page 15 a couple's baby disappears. The author is referring to the rapture (Mat 24: 40-41 1 Cor 15: 51-52) which describes the taking up to Heaven of believers to be with Christ. BUT, the bible says nothing about children being raptured. Rev 11: 15-18 says the rapture or taking up is to give reward to the saints. There is no other reason to take up an individual, and children are not saints (below the age of reason) nor is there any reason to reward them. 0 of 0 people found the following review helpful. I believe it could happen tomorrow...or sooner...! By LoneStarWolverine My favorite of all eschatology books to date, and I read them all. I can't find too many to study. This is a must read. I have started purchasing extra copies for friends. Most of my studies usually keep me motivated to read everything I can about the Pre-Tribulation Rapture (Titus 2:13 Blessed Hope). This book reinforced this practice, but also opened my eyes to the Second Advent (Titus 2:13 Glorious Appearing). I met the author at a prophecy conference at my church. I have also seen him on tv. His message is consistent! He is solid!

Christ spoke of impending wars, rumors of wars, ethnic conflicts, spiritual deception, famines, pestilences and earthquakes in various places. Most people are ignoring these warnings, but all are signs that we are in the last days. Discover emerging technologies and the global efforts toward a new World Order. Separate fact from fiction about the end of the world and America's place in biblical prophecy. Consider the dramatically prophetic rise of Islamic dominance leaving Israel imperiled. With earthquakes trembling the Midwest, America also endured a record-breaking number of weather-related disasters: severe floods, persistent drought - 2011 was a year of truly unimaginable upheaval around the world. What makes our generation different? What signs have already been fulfilled? *It Could Happen Tomorrow* is about how events like these in biblical prophecy will impact the world. It includes a powerful message of hope for people today - the ending is simple, powerful, and inevitable - God and His love will prevail. Are you ready....if it happened tomorrow?

Gary speaks and writes the way he communicates - with passion and compassion. You hold in your hands a message filled with living hope in a Savior who is coming soon. I am personally grateful for this challenging word from one of today's foremost authorities in Biblical prophecy. --Dr. Jack Graham, Sr. Pastor Prestonwood Baptist Church, Plano, TX Captivating...riveting...fascinating...mesmerizing...all describe the message of this new must read book. If you want to have a grasp on the future events that will shake the world, read Gary Frazier's newest book. --Dr. Ronnie Floyd, First Baptist Church of Springdale, AR While speculation abounds regarding end time events, Gary Frazier has opened our eyes and hearts to see through the lens of scripture that God has a plan. This book will encourage you to look up, listen up and live upward for Christ's coming is near. --Dr. Edwin Young, Sr. Pastor Second Baptist Church, Houston, TX About the Author Gary Frazier, a respected speaker and writer on the subject of Bible prophecy and current events, has appeared on numerous documentaries, the History Channel, and national radio programs.
