this because I thought it would be more like the t.v. show, ' Home Fires' as this is the book that it is "based" on. More of a story. This book is more academic and a history of the Women's Institute in the U.K. Somewhat interesting, but kind of dull too. I think if you were a member of that organization you would find it interesting.

This is the compelling true story of how the Women's Institute pulled Britain through the war with pots of jam and a spirit of make-do-and-mend.

About the Author Julie Summers is a bestselling writer, researcher and historian. Her books include :Fearless on Everest: The Quest for Sandy Irvine; a biography of her grandfather, the man who built the 'real' bridge over the River Kwai, The Colonel of Tamarkan, Stranger in the House and When the Children Came Home,a social history of servicemen returning to their families from the Second World War. She lives in Oxford.
