**Mohammad Ali Amir-Moezzi : The Spirituality of Shi'i Islam: Belief and Practices (Ismaili Texts and Translations)** before purchasing it in order to gage whether or not it would be worth my time, and all praised The Spirituality of Shi'i Islam: Belief and Practices (Ismaili Texts and Translations):

4 of 6 people found the following review helpful. Very informative book  
By Nazir Alimohammad  
So much information on Shia Islam supported by historical facts and data. One has to really read it carefully to understand the background of this Islamic sect to appreciate this book. Well done research and highly recommend to students of theology and those interested in Islamic history.

Shi'ism is the second most numerous branch of Islam in the modern world, with between 130 and 190 million adherents across the globe. Shi'i Islam is becoming an increasingly significant and resurgent force in contemporary politics, especially in the Middle East. This makes a good and informed treatment of its fundamental spiritual beliefs and practices both necessary and timely. Mohammad Ali Amir-Moezzi is one of the most distinguished scholars of Shi'i history and theology currently at work, and in this volume he offers precisely such a wide-ranging and engaging survey of the core texts of Shi'i Islam. Examining in turn the origins and later developments of Shi'i spirituality, the author reveals the profoundly esoteric nature of the beliefs which accrued to the figures of the Imams, and which became associated with the latter's interaction between material and spiritual worlds. These beliefs were often designated as being *ghulat*, or "extreme," by other Muslims, and as a result of such criticisms from within the tradition they have remained little known and much misunderstood. Furthermore, Western scholarship has tended to follow the lead of the earlier Islamic critics, viewing these concepts as deviant and marginal. The author shows, by contrast, how central an imaginative and creative spirituality was to the development of Shi'i Islam, as well as to classical Islamic civilization, as a whole. In this comprehensive treatment, the esoteric nature of Shi'i spirituality is an essential factor in understanding Shi'ism.

About the Author  
Mohammad Ali Amir-Moezzi is a Director of Studies at the Ecole Pratique des Hautes Etudes at the Sorbonne, where he is Professor of Shi'i Muslim Exegesis and Theology, and joint Director of the Centre d'Etude des Religions du Livre/Laboratoire d'Etudes sur les Monotheismes (CNRS-EPHE).
