**William I. Hitchcock : The Struggle for Europe: The Turbulent History of a Divided Continent 1945 to the Present** before purchasing it in order to gauge whether or not it would be worth my time, and all praised The Struggle for Europe: The Turbulent History of a Divided Continent 1945 to the Present:

3 of 3 people found the following review helpful. The Truth Behind Europe Post WWII By THE-DEADLY-DOG How much do you actually know about Europe post-WWII? If you are like the majority of people you'll know they made it through the Cold War and that they are still around and host an Olympic event every now and then. Hitchcock's "The Struggle for Europe" will open your eyes, will expand your knowledge and will elaborate on all of the deep, burning questions you've ever had about Europe. Sitting down and thinking about my knowledge (even as a history major) prior to reading this book, I am truly shocked at how little I knew. There is so much here in this book and so much brought to the foreground that it's amazing it all fits together. That's another point I wanted to emphasize. This doesn't read like a textbook, doesn't read like a lecture, doesn't read like anything I've had the chance of diving into before. You'll absolutely love it, you'll crave the information and you will forever be thankful the veil has been lifted. 5 Informational Stars out of 5! 0 of 0 people found the following review helpful. Five Stars By Ashley Good read for understanding European History. 0 of 0 people found the following review helpful. Five Stars By edgar medinagreat

From the ashes of World War II to the conflict over Iraq, William Hitchcock examines the miraculous transformation of Europe from a deeply fractured land to a continent striving for stability, tolerance, democracy, and prosperity. Exploring the role of Cold War politics in Europe's peace settlement and the half century that followed, Hitchcock reveals how leaders such as Charles de Gaulle, Willy Brandt, and Margaret Thatcher balanced their nations' interests against the demands of the reigning superpowers, leading to great strides in economic and political unity. He re-creates Europe's struggles with their troubling legacy of racial, ethnic, and national antagonism, and shows that while divisions persist, Europe stands on the threshold of changes that may profoundly shape the future of world affairs.

"[S]hould be read and studied by a generation of students of European history. . . . One could not want a clearer exposition and a better guide." Los Angeles Times Book Lively and insightful. . . . A thoughtful narrative that challenges some previous assumptions about key events that shaped our world. The Washington Post Book World Splendid. . . . Hitchcock is a gifted storyteller, with a knack for choosing the right anecdote and quotation to enliven his story. The Economist Energetic and fluid. . . . A confident, sharp-minded account. Financial Times Every now and then books come along that tell you who the master historians of the next generation are going to be. I had this sense as I read Will Hitchcock's *The Struggle for Europe*. Shrewd, comprehensive, elegantly written, always convincing in its arguments, it is without question the most successful analytical synthesis of recent European history now available. John Lewis Gaddis, Yale University There is nothing more important at this juncture of our history than a crash course for Americans in modern European history. And there is no better place to start than with William I. Hitchcock's book. . . . It deserves serious attention. Daily News Tribune A clear exposition of postwar developments. . . . Sober and comprehensive. Publishers Weekly Lucid, highly readable. . . . Scholarly without being tedious, a sturdy companion to Richard Vinens *A History in Fragments*. Kirkus s Two features of this book stand out: its easy, lucid style, which allows deeply thought-out analyses to be slipped into the readable narrative; and the confident way it treats regional complexities, from Ulster to Greece, yet preserves the larger picture of Europe's remarkable transformation. This is a very deft and mature work. Paul Kennedy, author of *The Rise and Fall of the Great Powers* Succinct and handy. . . . Its analysis is adept, well supported with statistics, and quite readable. Booklist Concise . . . A classic account. . . . [The *Struggle for Europe*] has the priceless merit of clarity, indispensable to those trying to pick their way through the European labyrinth. The Daily Telegraph (London) The nature of the task [Hitchcock] has accomplished here should not be underestimated. In fewer than 500 pages of text he has synthesized a mass of information, intelligently summarizing the latest state of play on a whole range of topics. . . . Always lucid and the geographical range is impressive. The Sunday Telegraph (London) An unassuming tour de force, *The Struggle for Europe* is seamlessly structured, witty and elegant in its narration. The Scotsman (UK) The optimism is refreshing, and this well-informed work is written in robust and readable prose. The Independent (London) Brilliantly concise, pithy, and sometimes acerbic. . . . If it is true that nations that forget their history are doomed to repeat it, then *The Struggle for Europe* ought to be part of a national curriculum. The Times (London) Written with an impressive level of sensitivity and understanding. . . . Hitchcock's lively style and infectious enthusiasm for his subject have resulted in a book which deserves to be widely read. Scotland on Sunday Stimulating and readable. . . . Hitchcock is alive to the dilemmas of European policy makers and statesmen. The Evening Standard From the Inside Flap From the ashes of World War II to the conflict over Iraq, William Hitchcock examines the miraculous transformation of Europe from a deeply fractured land to a continent striving for stability, tolerance, democracy, and prosperity. Exploring the role of Cold War politics in Europe's peace settlement and the half century that followed, Hitchcock reveals how leaders such as Charles de Gaulle, Willy Brandt, and Margaret Thatcher balanced their nations' interests against the demands of the reigning superpowers, leading to great strides in economic and political unity. He re-creates Europe's struggles with their troubling legacy of racial, ethnic, and national antagonism, and shows that while divisions persist, Europe stands on the threshold of changes that may profoundly shape the future of world affairs. From the Back Cover "Professor Hitchcock's *The Struggle for Europe* is not only shrewd and comprehensive, but written with a wit and vigour that makes it a real joy to read. It deserves to be the standard work on the subject for many years to come." - Sir Michael

Howard, formerly Robert A. Lovett Professor of Military History, Yale "This a perfect book for a university classroom on postwar Europe. It is smartly written, lively, and firmly grounded in the new research coming out of Russian and East European archives. Hitchcock has a firm grasp on continental developments, from the disputed origins of the Cold War to the new Europe of Maastricht, the Euro, and Brussels."-Norman Naimark, Robert and Florence McDonnell Professor of East European Studies, Stanford University "Two features of this book stand out: its easy, lucid style, which allows deeply-thought-out analyses to be slipped into the readable narrative; and the confident way it treats regional complexities, from Ulster to Greece, yet preserves the larger picture of Europes remarkable transformation. This is a very deft and mature work."-Paul Kennedy, author of Rise and Fall of Great Powers and Preparing for the 21st Century "With a sure grasp of political events, and sometimes frighteningly graphic accounts of Europeans personal experiences as they dug out of war-devastated homelands, Hitchcock provides a comprehensive, detailed analysis of how those Europeans--with, and sometimes despite, U.S. help--transformed the devastation into world power that is now at the cutting edge of global change."-Walter LaFeber, Cornell University "Every now and then books come along that tell you who the master historians of the next generation are going to be. I had this sense as I read Will Hitchcocks The Struggle for Europe. Shrewd, comprehensive, elegantly written, always convincing in its arguments, it is without question the most successful analytical synthesis of recent European history now available. This is the kind of book that could proudly cap the career of a senior scholar. That it comes from a young historian with years of productive writing and teaching ahead of him bodes very well for the future of our profession."-John Lewis Gaddis, Yale University From the Hardcover edition.
