hesitate to review this series (there are 3 volumes), not because they are not well done, but because the print is incredibly small. This series is far better read on an e-reader where the font can be enlarged. The material is well researched and comprehensive.0 of 0 people found the following review helpful. Five StarsBy CustomerGreat book. Very thorough and well done.0 of 1 people found the following review helpful. Five StarsBy Hulusi EzgiNo problem whatsoever.

The Venture of Islam has been honored as a magisterial work of the mind since its publication in early 1975. In this three-volume study, illustrated with charts and maps, Hodgson traces and interprets the historical development of Islamic civilization from before the birth of Muhammad to the middle of the twentieth century. This work grew out of the famous course on Islamic civilization that Hodgson created and taught for many years at the University of Chicago. In this concluding volume of The Venture of Islam, Hodgson describes the second flowering of Islam: the Safavi, Timuri, and Ottoman empires. The final part of the volume analyzes the widespread Islamic heritage in today's world. "This is a nonpareil work, not only because of its command of its subject but also because it demonstrates how, ideally, history should be written." The New Yorker
