Would most definitely purchase books from in the future for classes.0 of 0 people found the following review helpful. Thoroughly mediocre history textbook probably more suited for high school than college.By MyLossIsYourGainMaterial is overly condensed and dry. The professor has to dig up additional reading and cover material not in the book to give a better picture of what was going on in the 1000-1815 time period. At least it's way cheaper than the newest edition (I got mine for something like \$2-4, plus \$2-4 shipping... the new one at the bookstore was around \$80-90).0 of 0 people found the following review helpful.
