There is a lot of information between these covers, however most if it is more of an over view of what was going on at a certain time in history. If you were looking for something with more detail and a bit more info on the people who were important during that time, you won't find it here. However, if the authors did go into detail this would be a ridiculously large book to have to tote around. 0 of 0 people found the following review helpful.
