**The Economist : The World in 2010** before purchasing it in order to gage whether or not it would be worth my time, and all praised The World in 2010:

0 of 0 people found the following review helpful. Oops...don't make my mistakeBy NirakMy husband buys The World in XXXX every year, but it's always hard to find at the store. I ordered this quickly as a Christmas present and didn't realize I should have been looking for the COMING year in order to be current NOT THE PRESENT year. The World in 2010 is the 2009 edition. To get the newest version I should have been looking for The World in 2011. Oops. Well it did make for a lot of laughs (at my expense) at Christmas. Oh well. I'll know better next time.
