Accurate educational poster By Kate Ng Hi Matt, Thank you so much for this educational and amazing poster. Appreciate the way you organise it (putting places next to each other, evenly distributing the time periods, accurate labels for arrows etc.) and it's absolutely great value for the effort and work you put in it. Cheers !! 0 of 0 people found the following review helpful. I love this time chart By N. Wilkinson I love this time chart. I'm a history fan, and this is a great tool for getting a sense of when things happened. It's just an outline of basic known history, but it's colorful and decorative, and attempts to cover events all over the world as opposed to just European events. If you enjoy looking at time charts then you'll probably like this one.

Covering 3000 BCE - present, this sturdy 24x36" wallchart displays all the major empires, kingdoms, and civilizations throughout history in a side-by-side format so that the viewer can quickly see how different events in different places relate to one another. A conscious effort has been made to make the chart less Eurocentric than other such timelines and to incorporate newly discovered links between early civilizations.
