Paul Terry : Top 10 of Everything 2015 before purchasing it in order to gage whether or not it would be worth my time, and all praised Top 10 of Everything 2015:

1 of 1 people found the following review helpful. This is terrible..By TwinklestarThis is terrible....What happened to the original version where you could find the top 10 OF EVERYTHING...I got the 2009 edition and it was a remarkable book but nowThis is a really bad decision to remove some great sections ...I hope the editor is reviewing this because this is really awful.Save yourself some money do a search on the internet and you will find better answers than the few section the book provides.I would gave it a 00 star If I could2 of 2 people found the following review helpful. As much as I like movies it seems that half the book is top ...By aaron spanglerI was very disapointed with this version of the top 10 series, I had not gotten one for around the last ten years, the quality has seriously declined. There are not as many pages or topics to look at. As much as I like movies it seems that half the book is top movies based on this topic. While the add your own sections are an interesting addition, I was very underwhelmed with this boo.4 of 5 people found the following review helpful. but a little disappointed also.

Originally this book was by author Russell ...By D. Thomas This is an entertaining book, but a little disappointed also. Originally this book was by author Russell Ash, and I had bought two older issues of his book in 2010 and 2011. I really enjoyed how the lists were done, how it was presented, and it really had places, sights, and things I enjoyed finding out about. It even had my other siblings and friends and family looking through it also. Sadly author Mr. Ash has passed, and so has the torch so to speak. This new edition is good, but vastly different from the others. While it does contain lists, some of them aren't as interesting as I would have liked. Topics like the tallest, shortest, biggest, smallest are there but not in everything, and there are some topics I don't care about, The graphics are much more vibrant splashy, but it also makes it a bit confusing to read the listings. Overall, it is still a conversation piece, but I found it not to be as entertaining as the former author had done it. Overall this is still a conversation book, just vastly different.

More than just number 1. A bestseller is back! The popular Top 10 series was packed with pictures and charts and information. The 2015 edition will be bigger (320 pages vs. 256 pages) and once again deliver the tallest scariest windiest fastest lightest winning-est slowest worst free-est deadliest loudest most-wanted brightest sleepest longest reigning deepest driest most valuable richest wettest most aggressive heaviest cleanest of games books basketball players Olympic athletes buildings bridges pop music twitter followers movies oil production race cars Oscar winners paintings and much more! Packed with unusual comparisons, special features, awe-inspiring photographs and holographic foil histories, engineering feats, and thousands of facts and pictures, the Top 10 of Everything 2015 will be one of the most desired and appreciated reference books of the 2014 season.

From School Library Journal Gr 5 Up This busy effort will appeal to list lovers. The glittery cover hints at the excitement to come within. There's no resting the eyes here: lists, fact boxes, and photographs abound, with no absolutely no empty spaces. The volume is broken up into 10 sections, including mechanical marvels, the animal kingdom, and epic structures. Each section concludes with a word search, multiple-choice quiz, invitation to readers to come up with their own list, and other puzzles. Answers to the puzzles and two indexes (categorical and alphabetical) complete the text. Though this chatty, loud presentation isn't appropriate for research purposes, it's lots of fun. (Anne Chapman Callaghan, Racine Public Library, WI) This busy effort will appeal to list lovers. The glittery cover hints at the excitement to come within. Answers to the puzzles and two indexes (categorical and alphabetical) complete the text. Though this chatty, loud presentation isn't appropriate for research purposes, it's lots of fun. (Anne Chapman Callaghan, Racine Public Library, WI School Library Journal 2014-12-01) This collection of top 10 goodies -- including "Songs About the Body" and "Amazing Cars for Hire" -- has plenty to entertain, if not educate. Coming at readers like a cross between Man's Adventure pulp magazines and Ripley's Believe It or Not, complete with a rainbow-reflective cover and a hefty 320 pages, Terry's compilation has a pleasing tongue-in-cheek tone -- a good number of the lists are "unofficial." Many of the entries are refreshingly nonhuman, which keeps the book from becoming a celebrity-filled bore. There are plenty of creepy entries from the animal kingdom, including sea lampreys, a great range of natural forces (biggest cave systems, longest coastlines) and a fine gathering of epic structures: buildings with the most ghost sightings, the biggest private house, and did you know there is a cash bar inside Cristo-Rei, the monumental statue of Jesus in Portugal? On each photo-splashed page are "Xtreme Facts" and "Off the Chart" addenda. The sheer busyness of the design -- there is not one spare micron of space for eyes to rest on -- will endear the book to readers with short attention spans, who might just find themselves looking up after an hour has passed, astonished at their absorption. For fans of the form, this compendium has plenty of juice. (index) (Reference 8-14) (Kirkus s 2014-10-15) About the Author PAUL TERRY is a bestselling author and award-winning music artist. He has worked with leading kids' brands including LEGO, Disney, DreamWorks, The Simpsons, Futurama, and Star Wars. A huge film, music and comic fan, Paul's understanding of what children find fascinating, meticulous research, and his love of trivia made him the ideal writer to inherit the legacy of Top 10's originator, Russell Ash. When he's not writing books, Paul writes music. His film scores include Emily (starring Oscar-nominee Felicity Jones and Emmy-winner Christopher Eccleston) and the highly acclaimed werewolf comedy The Furred Man. Under his solo moniker of Cellarscape, his records include the award-winning album The Act Of Letting Go.
