left me feeling a bit let down. If you are still interested after reading this book and want to delve deeper in to Buddhist philosophy there are other works by M.D.Eckel which go into much more depth and which I found to be a more challenging and satisfying read.0 of 0 people found the following review helpful. highly interestingBy INGORI have not yet read the whole book, but so far it is just what I wanted getting to know more about Buddhism. Seems to be very informative and easy to understand.0 of 1 people found the following review helpful.
