Thien Do : Vietnamese Supernaturalism: Views from the Southern Region (Anthropology of Asia) before purchasing it in order to gage whether or not it would be worth my time, and all praised Vietnamese Supernaturalism: Views from the Southern Region (Anthropology of Asia):

The beliefs and practices surrounding the meanings and symbols of the spirit world in Vietnam are explored in detail in this innovative study on popular religion in the country. The author shows an abiding interest in the 'subconscious life' at a grassroots level alongside rational formations of cosmological understanding which effect politics and economics on a national scale. By bringing together oral histories, reports and fiction writing alongside more conventional documented sources, this book reveals an area of history which has been largely neglected.

About the Author Thien Do is Visiting Fellow at the Research School of Pacific and Asian Studies, Australia National University.
