Richard Stevenson, Tara Krishna Basu : Village Life in Bengal, Hindu Customs in Bengal before purchasing it in order to gage whether or not it would be worth my time, and all praised Village Life in Bengal, Hindu Customs in Bengal:

India is a modern country of some two hundred million people intermingled with a timeless country of 800 million

souls. Understanding Modern India is not all that difficult as it is much like the United States. However, even in modern India, people retain many of the religious beliefs and superstitions which they have absorbed from timeless India. *Village Life in Bengal* by Tara Krishna Basu and *Hindu Customs in Bengal* by Besanta Koomar Bose, describe part of the life which exists just under the surface of modern India.

About the Author Richard Stevenson is a Member of The Asiatic Society of Calcutta and a former scientific advisor to the Indian Institute of Technology, Kharagpur. He has traveled widely in Bengal and India. He lives and works in Mesa, Arizona.
