From imusti : Violence in Islamic Thought from the Qur'an to the Mongols (Legitimate and Illegitimate Violence in Islamic Thought) before purchasing it in order to gage whether or not it would be worth my time, and all praised Violence in Islamic Thought from the Qur'an to the Mongols (Legitimate and Illegitimate Violence in Islamic Thought):

0 of 0 people found the following review helpful. Nice, scholarly
By Geoffrey W. Dennis
Nice, scholarly, nuanced analysis. Some articles get down into the weeds of source variants and such, but all in all a great introduction. Some wonderful analysis of themes of violence beyond 'jihad.' Of course, the historicity of jihad in its 8-9th century Syrian frontier context matters little to its modern practitioners, who treat the concept as universal and timeless, but instructive for the rest of us.

How was violence justified in early Islam? What role did violent actions play in the formation and maintenance of the Muslim political order? How did Muslim thinkers view the origins and acceptability of violence? These questions are addressed by an international range of eminent authors through both general accounts of types of violence and detailed case studies of violent acts drawn from the early Islamic sources. Violence is understood, widely, to include jihad, state repressions and rebellions, and also more personally directed violence against victims (women, animals, children, slaves) and criminals. By understanding the early development of Muslim thinking around violence, our comprehension of subsequent trends in Islamic thought, during the medieval period and up to the modern day, become clearer.

"The book provides a sense of the highly complex and fluid role that violence played in Islamic thought over the course of several centuries, a target that the book undoubtedly strikes." -- Michael Hope, *Situations*
About the Author
István Krist-Nagy is a Lecturer in Arab and Islamic Studies at the University of Exeter. He is the author of *La pensee d'Ibn al-Muqaffa* (2013).
Robert Gleave is Professor of Arabic Studies at the University of Exeter and was Director of the Legitimate and Illegitimate Violence Project 2010-13. His most recent publications include *Islam and Literalism: Literal Meaning and Interpretation in Islamic Legal Theory* (Edinburgh University Press, 2012).
