Patrick Watson : Watson's Really Big WWII Almanac: Volume II: July to December before purchasing it in order to gauge whether or not it would be worth my time, and all praised Watson's Really Big WWII Almanac: Volume II: July to December:

0 of 0 people found the following review helpful. Excellent reference By Will Belford If you need to know what happened on any given day in World War 2 this is the book for you. 2 of 2 people found the following review helpful. A great gift By Abby I received a copy of this book for my birthday from a friend who is well acquainted with my fascination of World War II. It turned out to be one of my favorite presents. There is so much information contained in

it that it's almost overwhelming. To be able to read about facts concerning the war throughout history is really unique. On a single page I can peruse something about the war that occurred in the 19th century and then on the same page find information on something that happened in the 21st. The book should have been named "World War II Throughout History" because that's what it's about. Can't wait to buy the other volume in the set. 3 of 3 people found the following review helpful. A different way to learn about World War II By History Nut As a history teacher I am always looking for some unique way to awaken my students interest in history. This book definitely fits the bill. The author utilizes a calendar-type format to display literally thousands of facts and events that relate to World War II. And they are not just the facts, figures and dates that my students find so boring. There are even tidbits about movies that were produced during and after the war. I purchased Volume II on a whim and I can't wait until I get Volume I.

This book covers events that have occurred throughout history that pertain to the Second World War. The dates range from the 1800's to 2007. It uses the same format and contains the same type of information as Volume 1, but it covers the period from July
