I was a bit sad that the cover was covered with a huge sticker, but it really did not affect what was in the inside. I did not like how my book had a lot of random highlights, and how dirty it looks, but it was half off so I could put up with that. The paper cover is also very thick, which is nice because it protects the inside text.Please note, I am reviewing the actual physical book, not what's inside it.1 of 1 people found the following review helpful. Tackles the big subjects.By Heather DonnellyWhile I learned a lot from this book, at times it was a bit dense and pedantic, mostly because it was trying to cover so much in a comprehensive way. Still, it had a balanced perspective and was much better than my high school textbooks from years ago. The highlighted stories were especially appreciated as a way to break up big chunks of text and create memorable moments
