**Joshua Cole, Carol Symes : Western Civilizations: Their History Their Culture (Brief Fourth Edition) (Vol. 2)** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Western Civilizations: Their History Their Culture (Brief Fourth Edition) (Vol. 2):

2 of 2 people found the following review helpful. Decent book at a great price By Hope Boggs This book has everything the hardback does, yet it is not easily maneuvered through. If you get this version, please only get it for one class, not an extended period of time or for more classes. The graphics are wonderful and I enjoyed being able to zoom in. 0 of 0 people found the following review helpful. Another overpriced college textbook. By James Meh. Another overpriced textbook. Its better than many but is a clear money grab because its actual content is surprisingly bare bones. 0 of 0 people found the following review helpful. useful for class By DuniVI Its a history textbook.. not very interesting unless you love history. It was very useful for class.

The most pedagogically innovative brief text now connecting western civilizations to broader global contexts and students own experiences. *Western Civilizations* written by two expert teachers is the most pedagogically innovative text for the survey course. A carefully crafted text and media program empower students to master core content, engage in historical analysis, and think critically, and the Brief Fourth Edition has been substantially updated with the latest scholarship that connects the West to global contexts, as well as new Past and Present features that connect historical themes to contemporary topics.
