**Suzanne Haneef : What Everyone Should Know About Islam and Muslims** before purchasing it in order to gage whether or not it would be worth my time, and all praised What Everyone Should Know About Islam and Muslims:

1 of 1 people found the following review helpful. a book to have and shareBy Lori ThompsonI bought this book before I converted to Islam almost 7 years ago. I have read it over and over. For the lay reader it is thorough, easy to read and right on the mark.I have since bought a copy for most members of my family. It is a general knowledge book and like its title includes information that 'everyone should know'. My intention in sharing it was to dispel many of the

misconceptions people have about Islam and to open the door to understanding and dialogue. I personally have read no other book more suited for that purpose. Great book! 0 of 0 people found the following review helpful. Five Stars By Fatimah Najieb Excellent dawa'a book! 2 of 2 people found the following review helpful. excellent book By Wael Elsamman I would recommend this book for anyone who would like to learn something about Islam, specially non Muslims.

Written by an American Muslim, this work presents a brief yet comprehensive survey of the basic teachings on the significance of Islam's central concept, faith in and submission to God. It introduces the reader to how Muslims feel about various aspects of life, how they worship, and how Muslims living in the West practice their religion.
