Ramon Bennett gives an amazing account of God's chosen people, the Jews, and Israel, His holy nation. He shows how Israel affects every nation and individual and how Israel is the key to understanding prophecies of the end times, backing up every premise with a liberal amount of Scripture throughout. He draws parallels between the main events in Israel's ancient biblical history and reenactments of these events in its modern history. The rebirth of the nation in 1948 and the subsequent victorious wars are shown to be from the hand of the miracle-working God of Israel. The shocking anti-Semitic history of the Church is graphically portrayed, the result of being cut off from her Jewish roots and embracing replacement theology. Bennett gives hard-hitting historical facts about the Palestinian problem, which is rooted in the false religion of Islam and exacerbated by the western media, The last chapter deals with the fulfillment of specific Bible prophecies. These happen daily in Israel, and Bennett gives several exciting accounts, including the dead language of Hebrew being restored to modern use. The book ends on a hopeful note with God's purposes in a restored relationship between Israel and the Church, the "one new man" being fulfilled. This will bring about the mass harvest of souls in the end times when all Israel will be saved, ushering in the coming Messiah Yeshua. Regardless of the nuclear threats hanging over Israel today, she will always be a nation. Only if God's ordinances of the day and night cease will Israel cease from being a nation. Thus saith the Lord! Every Christian should read this book.

This is the first of Ramon Bennett's books. It is timeless in that the teachings in it make it clear that the land of Israel belongs to the Jews, why it belongs to the Jews and why the Jews have paid a high price for being God's chosen people. It should be a "must read" for every person in government in the Western world.

I specifically looked for this book after I already read somebody else's copy. Explains Jewish nation, it's role in God's plan and human history. Changes prospective on so many things. Makes you know God - and people - better.
