Giles Milton : When Hitler Took Cocaine and Lenin Lost His Brain: History's Unknown Chapters before purchasing it in order to gauge whether or not it would be worth my time, and all praised When Hitler Took Cocaine and Lenin Lost His Brain: History's Unknown Chapters:

0 of 0 people found the following review helpful. incredible book that I wished would never endBy fukkfascismI

pretty much read this in one sitting and was dismayed to get to the last page and I immediately checked to see if there was another one. It told me incredible things I never knew, about important historical events and characters; to a history junkie with a taste for a good story this is the purest smack1 of 1 people found the following review helpful. Oh, Hitler...By MichaelGave this as a gift but read it myself first. A fun, excellent read. Like going down an internet wormhole, but in convenient book form.0 of 0 people found the following review helpful. A nice collection of historical triviaBy ClickA collection of vignettes about moments in history you probably never knew. Most are 4 pages in length and are as easy to read as they are entertaining.

Obscure and addictive true tales from history told by one of our most entertaining historians, Giles MiltonThe first installment in Giles Milton's outrageously entertaining series, History's Unknown Chapters: colorful and accessible, intelligent and illuminating, Milton shows his customary historical flair as he delves into the little-known stories from the past. There's the cook aboard the Titanic, who pickled himself with whiskey and survived in the icy seas where most everyone else died. There's the man who survived the atomic bomb in both Hiroshima and Nagasaki. And there's many, many more. Covering everything from adventure, war, murder and slavery to espionage, including the stories of the female Robinson Crusoe, Hitler's final hours, Japan's deadly balloon bomb and the emperor of the United States, these tales deserve to be told.

If you get a kick out of odd historical trivia like that, you'll devour When Hitler Took Cocaine and Lenin Lost His Brain, the first installment in Giles Milton's new History's Unknown Chapters series. Packed with 50 stories your social studies teacher probably skipped, the book sports a wandering eye and witty voice that make for diverting winter reading. The Washington Post "A list of insurance claims taken out on pets drowned with the Titanic. A legend detailing the various forms of Chinese castrati. A detailed description by the oh-so-fittingly named Sir Hamon LEstrange of a dodo a mere quarter century before the bird's extinction. These moments are the winking epigraphs of grinning Death, gleaned from Giles Milton's history of the bizarre, the obfuscated and the macabre. And what a history it is!" Paste Magazine "50 brief but detailed stories, from the hilarious to the absurd." The Minneapolis Star Tribune "Fans of history, trivia, and Milton's previous works will delight in this collection of lesser-known historical stories." Library Journal (starred review) "Stranger than fiction? Possibly, but life always seems to create more bizarre people and unforeseen happenings than most writers will ever imagine." CounterPunch [An] easily digestible mix of humor, trivia, and solid research. Dozens of seemingly too-good-to-be-true tales There are plenty of fabulously dramatic adventures here Milton's entertaining collection is sure to leave readers waiting for the next volume in the series." Publishers Weekly Milton has assembled an easily digestible compendium of historical oddities about the famous and infamous. Kirkus s About the Author Giles Milton is a writer and journalist. He has contributed articles to most of the British national newspapers as well as many foreign publications, and specializes in the history of travel and exploration. In the course of his researches, he has traveled extensively in Europe, North Africa, the Middle East, and the Americas.
