From University of Illinois Press : Women in Iran from the Rise of Islam to 1800 before purchasing it in order to gage whether or not it would be worth my time, and all praised Women in Iran from the Rise of Islam to 1800:

Combining scholarship from a range of disciplines, this collection of essays is a comprehensive examination of the role of women in Iranian society and culture, from pre-Islamic times to 1800. The contributors challenge common

assumptions about women in Iran and Islam. Sweeping away modern myths, these essays show that women have had significant influence in almost every area of Iranian life. Focusing on a region wider than today's nation-state of Iran, this book explores developments in the spheres that most affect women: gender constructs, family structure, community roles, education, economic participation, Islamic practices and institutions, politics, and artistic representations. The contributors to this volume are among the most prominent international scholars working in this field, and each draws on decades of research to address the history of Iranian women within the context of his or her area of expertise. This broad framework allows for a thorough and nuanced examination of the history of a complex society.

"This balanced, well-written collection shows the enormous diversity of life for Iranian women throughout history and within different social groups."
