Ernest L. Mazzaferri MD : Year Book of Endocrinology, 1e (Year Books) before purchasing it in order to gage whether or not it would be worth my time, and all praised Year Book of Endocrinology, 1e (Year Books):

From Ernest L. Mazzaferri, MD MACP: ". . . experts in their respective areas, provide succinct editorial comments with references for each article, which the practicing physician will find useful in day-to-day practice." There's no faster or easier way to stay informed! The Year Book of Endocrinology brings you abstracts of the articles that reported the year's breakthrough developments in endocrinology carefully selected from more than 500 journals worldwide. Expert commentaries evaluate the clinical importance of each article and discuss its application to your practice.

From Ernest L. Mazzaferri, MD MACP: "As the number of endocrinology articles increases each year, the Year Book of Endocrinology section editors screen over 4,000 articles annually, from which approximately 225 are selected from national and international journals that the editors believe have a major impact on clinical practice. The book is divided into several major sections: diabetes mellitus, lipoproteins and atherosclerosis, obesity, disorders of the thyroid, calcium, bone and adrenal and reproductive endocrinology, neuroendocrinology and pediatric endocrinology. . The section editors, experts in their respective areas, provide succinct editorial comments with references for each article, which the practicing physician will find useful in day-to-day practice."
