AmazingCustomerExcellent book on the spiritual wars that have gone on since time immorial but is more so today.

Takes you on a path which exposes those who do not believe nor have faith and how others have attacked businesses and churches for their beliefs, and the stories are all true. The author gives the references and are easy enough to find. The Bakery story in NYC was very sad. Intolerance of another's beliefs are beyond reprehensible. Fortunately I've not run into such callous disregard and I hope I never will. 2 of 2 people found the following review helpful. This should be your next read. By Kevin I recently received this book and have read it cover to cover. Obviously Erick and Bill are writing from a conservative viewpoint, but the facts presented are undeniable. This is a must read for anyone who cares about the direction of the country. It's not just anecdotal evidence they provide, rather they clearly describe the disturbing direction that our country is currently heading. They document the choices we've made and where we've strayed. This is important so that we can reverse course and not repeat the same mistakes. As Erick credits Matt Lewis for the idea behind the book, the most important point is that Erick and Bill decided to write it. Thankfully they did and your friends will thank you if you give me them a copy. I've already bought one for a friend and plan to purchase others. Whatever is at the top of your reading list, pause it and make this your next read. 0 of 0 people found the following review helpful. Good people who try to live their lives according to ... By Jenifer Truitt I think of myself as a conservative citizen and voter. I read my local newspaper, and occasionally listen to the news. However, I was actually shocked to read this book and to learn about attacks on our religious freedoms in the US that I had no idea were happening. Good people who try to live their lives according to Judeo Christian values have been persecuted to unimaginable degrees, and it seems these instances are only the beginning. Quite honestly, my eyes have been opened and I am seeing more clearly the need to step up and advocate for what is right. I see how very critical our next election is; we must elect a leader who will stand for and defend our God-given rights. Even if you think you are informed, I strongly recommend *You Will Be Made to Care*. Most likely you will find that there is so much more happening than you could've possibly imagined.

Religious liberty is under attack in America. Your freedom to believe may not last much longer. To all those who say they don't care about the culture war, Erick Erickson has only one response: "The Left will not let you stay on the sidelines. You will be made to care." Now the former Editor-in-Chief of RedState.com joins with Christian author Bill Blankschaen to expose the war in America on Christians and all people of faith who refuse to bow to the worst kind of religion secularism one intent on systematically imposing its agenda and frightening doubters into silence. The book features first-hand accounts from Christians who've been punished for their beliefs and the perspectives of concerned thought leaders to make the case that Americans of faith can't afford to ignore what's happening not anymore. *You Will Be Made to Care* offers hope for preserving freedom of conscience with practical steps that believers, families, pastors, church leaders, and citizens can take to resist tyranny and experience a resurgence of faith in America.

"The compassionate bullies of the Left have decided they must force you to shut up. My friend Erick Erickson exposes their unbelievable bullying so often ignored or excused by the media." Mark Levin, host of *The Mark Levin Show* and author of *Men in Black* "Erick Erickson is a brilliant thinker who knows how to deliver truth with punchy wit and without trigger warnings. This book explains to American Christians that ignoring the culture around us will not rewind us back to some safer place in the past. More than that, the book is a catalyst for thinking through a path forward for the years to come. Read this book and ponder how we can leave an inheritance for our children of liberty and justice, for all." Russell Moore, president, Ethics Religious Liberty Commission of the Southern Baptist Convention "As William Penn, founder of Pennsylvania, so aptly put it: We will either be ruled by God, or we will be ruled by tyrants. We cannot let the tyrants win. This fantastic book is a huge leap toward victory!" Brad Thor, #1 New York Times bestselling author of *Foreign Agent* "Few more prophetic words have been spoken in our recent political discourse than 'You will be made to care.' Erick Erickson and Bill Blankschaen underscore in a convincing and justifiably alarming way that the Left is not looking for mere tolerance but to force social conservatives, indeed everyone, into submission to their ideology prosecuting and persecuting along the way. You might not care about the agenda of social liberalism but, menacingly, it cares about you. This is a must-read book." David Limbaugh, New York Times bestselling author of *Jesus on Trial* and *The Emmaus Code*
